CORPORATE PROFILE

Established in 1973 as a co-operative effort by all the insurance companies then operating in the Republic, Singapore Reinsurance Corporation Limited (**Singapore Re**) serves the domestic (re)insurance industry as well as those in the Asian region and beyond.

It leverages on the symbiotic ties with business partners to offer value-added services and products directly, and also through its subsidiaries which serve the financial services sector in publishing and conferencing services.

Listed on the main board of the Singapore stock exchange since 1987, Singapore Re has grown steadily since its formative years, with the Group's shareholders' funds and total assets amounting to S\$273 million and S\$883 million, respectively as at 31 December 2019. The Corporation's A- (Excellent) rating from A.M. Best, the world's oldest and authoritative source of insurance ratings, demonstrates Singapore Re's financial strength.

The mission of Singapore Re is to be a professional reinsurer of high repute committed to offering business partners innovative reinsurance solutions and value-added support services, while at the same time striving to generate consistent returns and enhanced value for shareholders.

CHAIRMAN'S STATEMENT

Operationally, the year under review was a demanding one. Extreme weather-related events took centre stage. Although 2019 in terms of total insured loss estimate for NAT CAT perils was much lower than the prior two years, it was significant in that the top two costliest insured loss events, associated with wet perils (namely, typhoons Hagibis and Faxai), both occurred in Japan. On the other extreme end, the year ended with the bombardment of headline-breaking news related to the devastating effects of the bushfires in Australia.

Reinsurance Operations

Against this backdrop, the Group's gross premium income increased by 14.6% to \$\$238 million for the year ended 31 December 2019. Premiums from the Singapore market alone represented 32.9% of gross premium (2018: 30.3%), while the premium contribution from the top 3 overseas territories was as follows:

Territory	Gross Premium Written
Outside Singapore	67.1%
of which the top 3 overseas markets remained unchanged:	
Malaysia	30.9%
China	8.8%
Hong Kong	4.8%

Fire was the predominant class contributing 52.5% of gross premium income, followed by Accident (including Casualty), 40.4% and Marine, 7.1%.

As a consequence of the relatively high frequency and severity of NAT CAT losses in Asia in the year under review, compounded by rising concentration of exposures in cities in Asia, the net claim incurred rose 13.4% to \$\$41 million in 2019 and it represented an incurred loss ratio of 63.1%, a 7.9-percentage-points improvement compared to the 71% incurred loss ratio in 2018.

Simultaneously, net commission expense rose 22.4% to \$\$14.7 million in 2019 on the back of the premium growth, although the commission expense ratio of 22.7% of net written premium in 2019 was 1.0-percentage-point lower than the preceding year (2018: 23.7%). On account of the higher net premium revenue, the Group's reinsurance management expense ratio (as percentage of net written premium) fell to 11.8% in 2019 (2018: 15.1%). Overall, benefiting from the relatively modest premium income derived from Japan, the Group recorded a lower underwriting loss of \$\$3.4 million in 2019, equivalent to a deficit ratio of 5.3% (of net written premium), compared to the \$\$4.8 million underwriting loss or 9.4% deficit ratio (of net written premium) a year ago.

The Group generated a lower net investment income of \$\$14.1 million in 2019 (2018: \$\$16 million) which represented an annual rate of return of 3.1% on market value (2018: 3.7%). The reduction in net investment income was largely due to lower revaluation surplus for property investments. The investment asset allocation for 2019 remained stable and the breakdown was as follows:

Assets	Total Investment Allocation
Fixed Income Investment	45.7%
Cash and Cash equivalents	22.9%
Properties	19.7%
Equities	11.7%

CHAIRMAN'S STATEMENT

The Group's total assets, which comprised the sum of shareholders' and insurance funds, amounted to a credible S\$883.1 million, 8% higher than a year earlier. The NAV rose to 45.1 cents per share, up from 43.5 cents per share in 2018.

Taking into consideration the operating performance for the year under review, your Board is recommending a final dividend of 0.8 cent (2018: 0.8 cent) per share. Added to the interim dividend of 0.5 cent per share, the total dividend of 1.3 cents (2018: 1.3 cents) is equivalent to 4.4% dividend yield (2018: 4.6%) and represented an 80% pay-out ratio (as a percentage of Net Profit after Tax).

During the year under review, independent international rating agency A.M. Best once again affirmed your Company's financial strength rating of A- (Excellent) with Stable outlook.

Subsidiaries

Collectively, the subsidiaries' turnover fell 11.7% to \$\$5.2 million and reported a pre-tax loss of \$\$61,000.

By virtue of the continued tough operating environment for (re)insurers and its heavy reliance on customers in the (re)insurance segment, INS Communications Private Limited (INS), the publishing and conferencing arm of the Group, reported an operating loss for 2019, the first time ever in more than two decades. This was largely due to a significant drop in number of delegates attending conferences. However, the brand power of Asia Insurance Review (AIR), the flagship product of the subsidiary remained entrenched in the insurance community. The subsidiary continued to re-invent itself and explore new business both locally and overseas. Digital and social media while providing new opportunities for the subsidiary also present huge challenges as new entrants with no legacy issues can easily foray into the field. In that regard, competition in this arena has increased.

Despite the increasingly more challenging environment, INS remains committed to serving the insurance industry by extending its repertoire of product and service offerings to the insurance industry in Asia and the Middle East.

SR-China Advisory Services Co Ltd, incorporated in Shanghai, focuses on managing the Company's investments in China. It is not a profit centre.

Outlook

The (re)insurance arena is still plagued with excess capacity even though there has been some contraction with the pull-back by Lloyd's syndicates, as well as companies going into M&As or runoff. Loss-making markets and lines of business have started to see some correction in premium rates albeit slowly, but this is not consistently seen across all markets. The profitability of fresh entrants propelled by new technology with the likes of FinTech and InsureTech would take time to bear fruit. Web-based malicious threats and cyber-attacks in the digital era are now the norm so there is ever-growing need to invest in new or upgraded IT software to ensure a decent level of cyber hygiene is achieved. Your Company, being a financial institution and mindful of potential reputational risks from cyber security breaches, is likewise subjected to specific compliance standards.

Amid worsening extreme weather conditions resulting from climate change, the balancing between ensuring adequate retro protections to limit exposures on the one hand and the need to contain the rising costs on the other has become a daunting challenge to underwriters. It has also rendered it well-nigh impossible to achieve underwriting profitability. Given the continuing geo-political and economic uncertainties globally compounded by COVID-19 virus outbreak, the full impact of which is as yet unquantifiable, the financial markets globally will inevitably face heightened volatility. In the circumstance the prudential management of the Company's investments is crucial to ensure positive returns in keeping with the past.

During the period under review, under the guidance of the Board, Management has continued to strengthen its governance by improving its systems of controls and ensuring compliance with applicable rules, laws and regulations. Mindful of the importance of Sustainability, various administrative measures have been introduced.

With the deadline for the new international financial reporting standard for insurance contracts (otherwise known as IFRS17) looming nearer, the Company's management team is spending considerable time and effort to review off-the-shelf IT software which can hopefully be integrated with the existing systems. At the same time, work processes would have to be revamped and staff re-trained to ensure the Company can be operationally ready to meet the new accounting standards. It is an uphill task but we are rising to the challenge.

Lastly, on behalf of the Board, I would like to express our appreciation to Mr Ravi Menon, Managing Director of the Monetary Authority of Singapore and his team for their sound leadership in this digital era and encouragement to the financial sector as a whole to rise higher including through FinTech. We appreciate the support of our stakeholders including our shareholders, cedants, brokers, reinsurers, other business partners and our management and staff for their belief in the Company.

NOTES TO THE SUMMARY FINANCIAL STATEMENTS

(a) Basis of preparation

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (International) (SFRS(I)).

The financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

- available-for-sale financial assets are measured at fair value; and
- investment properties and owner occupied leasehold land and buildings are measured at fair value.

The financial statements are presented in Singapore dollars which is the Group's functional currency. All financial information presented in Singapore dollars has been rounded to the nearest thousand, unless otherwise stated.

The assets and liabilities of the Group which relate to the reinsurance business carried on in Singapore are subject to the requirements of the Insurance Act. Such assets and liabilities are accounted for in the books of the insurance funds established under the Insurance Act. Assets held in the insurance funds may be withdrawn only if the withdrawal meets the requirements stipulated in Section 17 and the Company continues to be able to meet the solvency requirements of Section 18 of the Insurance Act and Insurance (Valuation and Capital) Regulations. All other assets and liabilities are accounted for in the books of the "non-reinsurance funds".

All income and expenses relating to the reinsurance business are reported under the "Reinsurance operations" in profit or loss. All other income and expenses are reported as "Non-reinsurance operations" in profit or loss.

The financial statements of the Group represent the combined assets and liabilities, and income and expenses of the reinsurance funds and the non-reinsurance funds.

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements relate mainly to outstanding claim provisions and estimates of premium, commission and loss estimates for bilateral cessions business.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.
